TRANSVAAL AFFAIRS

Parliament Opened by President Kruger.

REMARKABLE STATEMENT MADE.

An Offensive and Defensive Alliance May Be Made Between the Transvaal Government and the Orange Free State to Resist the Interference of Great Britain With Either of the Countries.

PRETORIA, May 6.—The volksraad (parliament of the Transvaal) was opened yesterday by President Kruger. Unusual interest was taken in the proceedings in view of the recent disclosures made by the publication of the telegrams exchanged between Cecil Rhodes, then premier of Cape Colony, and others who took more or less important parts in the Jameson raid in the territory of the Boer republic.

The town was crowded with Boers, many of whom had ridden hundreds of miles in order to be present here when the volksraad reassembled, as its present session is looked upon as being one of the most important in the history of the little republic. Numbers of these sturdy, fighting farmers came here days ago in order to bring their influence to bear upon members of the executive council in the hope of bringing about the mitigation, if not the entire commutation of the sentences of the convicted leaders of the Johannesburg reform committee.

PRESIDENT KRUGER.

It is useless to deny that the publication of the series of incriminating telegrams has put a decided damper upon the efforts of the Boers to lessen the punishment of the prisoners, but it is said much may depend upon the action of the British government toward Cecil Rhodes, Alfred Beit, the director of the British South African company, who took such an important part in organizing the raids, and toward the company itself, to say nothing of the punishment which may be meted out to Dr. Jameson and his immediate associates. John Hays Hammond, the convicted American engineer, will, however, be more leniently dealt with than his fellow-prisoners, in view of the fact that he was opposed to actual rebellion against the Transvaal authorities.

The vicinity of the parliament building was crowded by a picturesque gathering of Boers long before the hour set for the opening of its proceedings, and when, indeed, were the commendations passed upon the diplomacy of "Oom Paul" who has so cleverly outwitted the British secretary of colonies from first to last, and who is now so completely master of the situation that he towers head and shoulders over everybody and everything connected with South Africa.

The president in his speech said, in brief that the recent events due to "malevolence and selfish objects" had seriously interrupted the rest and peace of the South African republic, adding: "It has ever been my wish to promote the development and prosperity of the republic in the most peaceful manner possible. I am firmly convinced that it is your sincere wish to co-operate with me in this policy, and that you expect with the fullest confidence, that this session of the volksraad will contribute in no small manner to the restoration of peace in this state, in order that, through our united co-operation, our country may flourish and prosper for the benefit of all."

The president then touched upon the foreign relations of the South African republic, the most delicate and eagerly anticipated portion of the speech, saying: "In spite of past troubles, the republic continues to maintain friendly relations with foreign powers."

This subject was there significantly dropped, and the president turned to the relations between the South African republic and its sister republic, the Orange Free State, remarking: "I hope that a meeting between representatives of the Orange Free State and representatives of the South African republic will shortly be held, and that plans for a close union between the two countries will be discussed."

This utterance of President Kruger was looked upon as confirming the report that negotiations have for some time past been on foot for an alliance, offensive and defensive, between the South African republic and the Orange Free State, looking to resisting any attempt upon the part of Great Britain to interfere in the internal affairs of either country.

PITTSBURG, May 6.—Joseph Orosz, who murdered his sweetheart, Teresa Bobak, Jan. 9 last, while in a jealous frenzy, has been sentenced to be hanged June 30.

THE CASANOVA OUTRAGE. A Sister of the Cuban Tells a Thrilling Story.

NEW YORK, May 6.—The Herald says: Mrs. Emilia Casanova de Villaverde, sister of Pedro Casanova, the American citizen whose servants were shot near San Miguel de Cuba after the Spanish column had raided the residence, was seen at her home in this city last night. Mrs. Villaverde is nearly prostrated with anxiety for her brother's safety and has sent the following telegram to President Cleveland:

"My brother, Pedro Casanova, and family are American citizens. My nephew, Julio Vidal, is a native born American. They have been trampled on, their house sacked, their servants shot and their lives threatened by Spanish troops in San Miguel de Cuba. As an American citizen, I demand immediate protection by the United States for their lives and property."

To a reporter she said: "I read with horror and indignation the account of the last outrage perpetrated by the Spanish troops in San Miguel. Tonight a letter came from my sister, in Havana, which tells me of the awful details and confirms the report in every particular. My brother, although born in Cuba, became an American citizen in 1860, and has made his home in New York city since. Owning large estates at San Miguel he has quite naturally spent the winter months in Cuba, where he could look after his interests on the island.

"He served many years in the Seventh regiment, Company K, of the N. Y. N. G., receiving an honorable discharge. Being an American citizen in the true sense of the word he did not wish to take any part in the present struggle in Cuba, but remained there later than usual this spring, hoping to save his property from destruction. He was known to every one as an American, and was respected as such by the insurgents.

"Word was brought me by an officer of the Ward line steamer, which has just arrived, that General Weyler had ordered my brother and his family to leave the island. If this be true he will probably leave for New York by the next steamer."

Another Filibustering Expedition.

NEW YORK, May 6.—Preparations are under way in Newark, N. J., to send a filibustering party to Cuba. It is stated that from 75 to 100 men have been already enlisted, most of whom are war veterans. For some time past the work of enlisting men has been going on and some of those who have undertaken to go to Cuba are residents of New York city. The move will be made in the near future.

The steamer which is to convey the party will carry a large stock of arms and ammunition, and, it was rumored, would sail from Perth Amboy. At that point, however, inquiry failed to elicit any information in regard to the proposed expedition.

STILL UNORGANIZED.

The Methodist Conference Not Ready to Transact Business.

CLEVELAND, May 6.—The fourth day's session of the Methodist general conference saw that great religious body still unorganized for the transaction of business. The debate on the eligibility of the women delegates occupied the entire day, and so far as the speakers are concerned, there is no evidence of a desire to bring the discussion to a close.

The lay delegates met at 5 o'clock and heard reports from their committee of 15 appointed to consider the question extending the term of pastorate. One report, signed by General Rusling of New Jersey, recommended that in exceptional cases ministers might be continued in the pastorate indefinitely. A second opposed any change in the rule regarding the time limit, stating as a reason that very often ministers remained too long in churches.

An amendment was offered by a delegate, providing for an extension of time by a three-fourths vote of all adult members of the church at quarterly conference, and the recommendation of all the presiding elders of the district. Both of the reports and the amendment also were tabled. A resolution recommending that the period of probation be changed from six months to three months was also tabled.

The Seventh district conference, which includes Michigan, Indiana and the Lexington conference of Kentucky, met yesterday and adopted a resolution declaring that the rights of church members should be recognized in choosing representatives. The discussion was along the line that the present mode of procedure was not democratic, appointing power being too generally vested in the ministry.

Hanged, but Not Dead.

WILLIAMSTOWN, Ky., May 6.—News has just reached here of the hanging of Dr. Ferrell at Elliston, Ky., Monday night by a mob. Ferrell has the reputation of a wife beater. He came home drunk Monday and proceeded to whip his wife. That night a mob was organized and strung him up to a limb. He was discovered later by some boys and cut down before life was extinct. It is thought he will recover.

White Wilde Was Drunk.

LONDON, May 6.—"Willie" Wilde, brother of Oscar Wilde, and formerly the husband of Mrs. Frank Leslie of New York, was charged at the Marlborough street police court yesterday with having been drunk and disorderly on Saturday night last, and with having tried to force his way into the Criterion restaurant. Wilde told the magistrate he was sorry and was fined five shillings.

MINERS DISSATISFIED

Likely to Be Trouble in the Hocking Valley.

A STRIKE IS THREATENED.

Miners Employed by the Sunday Creek Coal Company Have a Grievance Dastardly Attempt at Incendiarism—Deserted Wife Takes Poison—Various Other Ohio State News Items.

COLUMBUS, O., May 6.—As predicted some time ago in these dispatches, there are lively indications of trouble in the Hocking valley. W. E. Farmer of New Straitsville, president of Subdistrict No. 1, United Mine Workers, is here to confer with the officers of the Sunday Creek Coal company over grievances which have sprung up between the miners and their employers in reference to the discharge of men ostensibly for mining dirty coal. The men claim this company has an arbitrary rule as to this matter, which is not in vogue with other companies, and which is very unjust to the miners. A strike is threatened unless the matter is speedily adjusted.

The most serious grievance is at No. 8 mine, near Corning, where 260 men are employed. The trouble is likely to involve a vast number of miners.

DISCOVERED IN TIME.

A Keg of Powder Which an Incendiary Tried to Use on a House.

GALLIPOLIS, O., May 6.—The residence of Contractor Oliver Carsey was fired Monday night by an incendiary. Mr. Carsey had received several notes warning him that his home would be burned and also threatening personal violence to his wife, but he gave them no notice whatever and went away on a visit, leaving a domestic in charge of the house, who, being awakened by the smoke, gave the alarm.

A keg of powder had been placed beside the house, but was discovered in time to prevent an explosion. The police are working on the case and the guilty party will probably be apprehended.

CONVICTS BENEFITED.

Warden Coffin Inaugurates Some Very Radical Changes.

COLUMBUS, O., May 6.—Warden Coffin's first order inaugurates radical changes at the penitentiary. It permits the hundreds of prisoners in the idle houses to talk one hour morning and afternoon and permits them to walk without the lockstep while exercising in the yards and by twos. The men are also to be conditionally allowed to talk at dinner on Sunday. Regular guards are to be placed on the wall at night, instead of patrolling the yard, the outside night guards being dispensed with.

TWO SISTERS LOCKED UP.

WEST UNION, O., May 6.—Lote and Bige Scott, two sisters living at Rome, are alleged to have assaulted the family of John Farmer, their next door neighbor, Monday night, hurling rocks through the front windows. Several members of the Farmer family are said to have been seriously hurt, the youngest son's skull being fractured. The Scott girls were lodged in jail here yesterday. Mr. Farmer moved to Rome from Cincinnati two months ago. The Scott girls claim Farmer talked about them.

Investigation Ordered.

DAYTON, O., May 6.—In impaneling the grand jury yesterday Judge Dwyer especially charged Foreman Hamilton and the other members to carefully and impartially investigate the management of the workhouse, recently infected with smallpox, and to settle the differences between the "doctor inside and the doctor outside," as the court expressed it, meaning Health Officer Idings and Workhouse Physician Dr. G. W. Miller. The charge created a sensation in the courtroom.

Congressman Danford Renominated.

BELLAIRE, O., May 6.—At the congressional convention of the Sixteenth district Republicans yesterday, Lorenz Danford of St. Clairsville, the present Republican congressman, was renominated without opposition. For delegates to St. Louis Hon. J. J. Gill of Steubenville, and Major David Cunningham of Cadiz were chosen delegates to the national convention. John Tripp of Carroll county was chosen elector. The delegates were instructed for McKinley.

Relief For Buluwayo.

CAPE TOWN, May 6.—A dispatch received here from Macoustie, in King Khama's country, announces the arrival there of 300 troops, under Colonel Plumer, forming the first detachment of the relief corps bound for Buluwayo. This body of men has now accomplished about one-third of the journey to the besieged town.

Royal Wedding.

COPENHAGEN, May 6.—Princess Louise of Deumark, eldest daughter of Crown Prince Frederick, who was born in 1875, and Prince Frederick of Schleswig-Holstein, cousin of the reigning Prince George, who was born in 1868, were married yesterday evening at the Palace Amalienborg.

Columbus Assignment.

ZANESVILLE, O., May 6.—Walter Tress, the 9-year-old son of ex-Policeman Jack Tress, was washed beyond his depth while wading in the Muskingum at the noon hour yesterday and drowned.

Wading Boy Drowned.

ZANESVILLE, O., May 6.—Walter Tress, the 9-year-old son of ex-Policeman Jack Tress, was washed beyond his depth while wading in the Muskingum at the noon hour yesterday and drowned.

WHEELING, May 6.—Sara, the 4-year-old daughter of William Ritz of this city, was drowned yesterday afternoon in the city reservoir. The body was recovered an hour later by the father.

PERJURED HIMSELF.

Startling Disclosures in the Scott Jackson Trial.

THE GREATEST SENSATION YET.

Detective Seward Acknowledges That He Manufactured Evidence For the Defense and That Everything That Truste Testified to Was False—The Defense Closes and the Rebuttal Testimony Begun.

CINCINNATI, May 6.—The greatest sensation yet developed in the Scott Jackson trial for the murder of Pearl Bryan was brought out at noon Tuesday. It seems that after court adjourned Monday evening Detective Seward sent for Colonel Nelson and asked him for a conference. Colonel Nelson replied that he would see Seward at the noon recess Tuesday.

Accordingly, Seward went to Colonel Nelson's office at noon Tuesday and confessed that he had manufactured evidence for the defense. He also admitted that he had coached the witness Truste, and that everything he testified to was false.

Seward begged Colonel Nelson not to prosecute him, and it is said even got on his knees and begged for forgiveness. Colonel Nelson will not admit that Seward got on his knees, but he admits that he made a confession and acknowledged that the witness Truste perjured himself.

Colonel Nelson has not yet decided what to do with regard to Seward.

The first witness called was W. L. Fortune. He said: "I know Mr. Herbert Schwartz. I remember him talking with me about the story that John Foster had told him. I did not say to him that it was strange that these parties came to the ferry that they did not come into my store. I did not say that they did not come into my store—that I had not seen them."

The next witness was John Foster. "I do not know Herbert Schwartz, Enquirer reporter. I do not remember talking to Mr. Schwartz about the two prisoners. I did not describe the two men to him."

Colonel Crawford then read a number of depositions. Some of them related to Will Wood, saying that his character was bad and his reputation for truth and veracity was bad in and around Greencastle, Ind.; also that Scott Jackson's reputation was good. Allen Johnson's reputation was also attacked by several depositions.

The defense then announced that they rested the case.

In rebuttal the prosecution introduced John W. White, of Danville, Ky., and W. L. McCarthy of Kingsville, Ky., who testified that Truste, Sr., and Seward were brother-in-law. McCarthy said that Truste's character was not good at Kingsville.

Ed Mosby, James Smith and John Lee, members of the colored Caldwell guards said that the guards did drill on the Friday night that George Jackson said that they did. This was contrary to their depositions but each claimed they did not know what they were doing when the depositions were taken.

William Beasley, William Robinson and several other members of the Caldwell guards testified that the guards did drill on the Friday night and corroborated George Jackson in his story.

W. D. Collins, a bartender at Theo's saloon on Fifth street, testified that Scott Jackson borrowed \$1 from him during the last week in January and returned the money at 7 o'clock of the morning the headless body was found. Jackson's testimony was that he did not arise until 10 o'clock that day.

John L. Jones of Toledo testified that he had been arrested in Hamilton for prize fighting and was defended by Morey, Andrews & Morey. This confirms Allen Johnson's story.

Court then adjourned.

GASOLINE EXPLOSION.

Two Women and Two Children Victims of a Brooklyn Disaster.

NEW YORK, May 6.—As the result of an explosion of a gasoline stove in a Brooklyn tenement house yesterday two women and two children were so badly burned that they died soon afterward. Two other children were also seriously burned.

The dead are:

Mrs. Rebecca Cohen, 234 Johnson street.

Carl Cohen, aged 2 years.

Solomon Cohen, aged 3 years.

Mrs. Pasternak, 234 Johnson street.

The explosion occurred in Mrs. Cohen's apartments while she was standing at the stove, and the burning fluid ignited her clothing, quickly enveloping her in flames. The terrified woman ran shrieking into the apartments of Mrs. Pasternak, across the hallway, and in the latter's attempt to relieve the suffering woman her clothing was set on fire. Then both women ran into the hallway, where they were found by the firemen, who carried them to the street. They died a few minutes later.

The clothing of Mrs. Cohen's children was also ignited from the fire caused by the explosion. They were so terribly burned about the body and limbs that they died soon after being removed to the hospital.

Chinese Awaiting to Cross Over.

Montreal, May 6.—The springtide of Chinese immigration has arrived. Yesterday 100 Chinese came from Vancouver and are now stopping at the two big Chinese boardinghouses, waiting for a favorable opportunity to go to the states.

GENERAL HARDIN will do the free silver cause more harm than good by such speeches as he is reported to have made at Nicholasville and Richmond.

REPUBLICANS are scrambling to get on the McKinley band-wagon. "Kentucky's own son" isn't thought of any longer in connection with the Presidential race.

By the way, has any A. P. A. been convicted of anything in this State since the beginning of the Bradley administration, inquires the Courier-Journal, who has not been pardoned by the little politician who is Governor of Kentucky?

E. H. VAN INGEN, an American merchant residing in London, has brought certain Republican papers to book for libels in the Presidential campaign of 1892. Shortly before the election these papers printed statements that Mr. Van Ingen had brought from England \$500,000, contributed by the Cobden club, to elect Cleveland. Some of them have been repented the performance ever since, and are not through yet, says the Pittsburgh Post. Mr. Van Ingen has recovered \$4,000 and costs from the New York Mail and Express, and \$1,000 and costs from the New York Recorder, and the New York Press has expressed its regret for having published "such false and unfounded charges," and paid \$3,000 and costs to avoid letting the case go to trial. Moreover, Dalziel's News Agency in London, which sent out the report, has paid \$4,800 smart money. All the papers that published the story knew pretty well it was a lie on its face.

THE CONGRESSIONAL RACE.

Comments of the Press on Col. W. LaRue Thomas' Candidacy For the Nomination.

Lexington Argonaut: "The Democrats of the Ninth district are discussing Col. W. LaRue Thomas as a suitable candidate with which to retire Congressman Sam J. Pugh. If the district was canvassed from house to house a better or more available man could not be found to lead the Democratic fight. Of splendid ability, unreproachable character, great personal popularity, unquestioned Democracy, splendid personal appearance, and undoubted courage, he would combine all of the elements needed for aggressive leadership.

"He has never sought or held office, has never been identified with any faction, and has no official record to defend. On the stump he would make Pugh look like a common skater in the Suburban Handicap. And when it comes to kissing the babies and buying candy for the larger kids, he would send Pugh and everybody else out of the district who undertook to compete with him."

Sentinel-Democrat, Mt. Sterling: "The friends of Col. W. LaRue Thomas, of Maysville, in this county, and they are legion, will be pleased to hear that the prospects are flattering for Col. Thomas' nomination for Congress by the Democrats of the Ninth district. Col. Thomas is a man of ability, of unquestioned integrity, and a Democrat of the truest type. He has never been mixed up in any of the factional fights within his party in the district, consequently it is believed that this fact, together with his undoubted fitness for the place, makes him the strongest man the Democrats could run against Pugh. He will not enter into a scramble for the nomination, but if his party selects him as its standard-bearer he will make the race, and his friends confidently claim will redeem the district. The people of the Ninth district would honor themselves equally as much as they would honor Col. Thomas by electing him their Representative in Congress."

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

DEMOCRATIC HAND-BOOK.

A Record of Much Value to Every Member of the Party in Kentucky.

The new Democratic hand-book is now ready for distribution.

Much care, thought and labor has been expended in its compilation, and it is offered to Democrats with the assurance that it contains absolutely authentic information, not published elsewhere, of the party organization in every precinct, county and political division of the State.

In addition to complete and accurate lists of State and County Executive committees and the names of their officers, it contains lists of the counties comprising each Legislative, Senatorial, Circuit Court, Appellate, Railroad Commissioner and Congressional district, and the name and address of the Chairman of each committee. It also contains the rules of the State Central Committee adopted under the authority of the last State convention, platform of the party, State and National, tables showing the vote of the State by counties and districts, and statistics of interest and value to every Democrat and citizen. One of its features is the correct name and address of every county officer in the State, and a court calendar revised, and brought down to the date of adjournment of the last Legislature.

It is an indispensable record for all Democratic office holders, those who are seeking or expect to seek office, and of great interest to all who have held office in the Commonwealth. In fact, it constitutes a record of permanent value to the party, and will enable those having its interests and welfare at heart to organize more efficiently in the future than they have ever been able to do in the past.

To cover the cost of compiling the matter and printing the book, the price of 50 cents has been placed upon it, and it is hoped that every Democrat in the State will be willing to incur such a small expenditure toward a record of such value to the party.

Orders will receive prompt attention if sent to R. H. Ingram, Secretary State Executive Committee, Louisville, Ky.

Orangeburg.

All are invited to attend our Sunday schools every Sunday morning.

Miss Lute Pollitt and brother Pearce were visiting relatives here Sunday.

Miss Mollie Hord has returned to her home after a few days sojourn in town.

Don't forget the prayer meeting on Tuesday evenings at the Methodist Church.

Rev. Watkins, of Louisville, will preach at the Christian Church next Sunday. All are cordially invited.

D. G. Wilson and wife are rejoicing over the arrival of a son, weight eight pounds. Mother and child doing well.

Miss Lucy Bullock returned home from Lexington last week quite ill, since which time she has been under the care of Dr. Hord.

Prof. G. H. Turnipseed has returned to his home in Cincinnati. His many friends here wish him a pleasant visit and a speedy return.

J. D. Mayhugh and Dr. Hord have returned home after a pleasant visit to Rev. A. E. Zeigler of Huntington, W. Va. They attended the dedication of the new Christian Church while there.

George Farrow, an old and respected citizen, died Sunday evening. His remains were taken to Olivet Monday for interment, followed by a large concourse of friends. The family have the sympathy of the community in their bereavement.

The literary society of "Gem Seekers" met on last Friday evening at the residence on Mr. Frank Kennan. They organized on the evening of February 29th with twenty-three names enrolled. They now have a membership of over sixty, but they have thought best to disband until after the busy time and warm weather were past when, God willing, they will unite and resume their weekly meetings as heretofore.

Attractive Women.

Why is one woman attractive and another not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any disease of the distinctly feminine organism.

Another Car-load of Good Horses.

Daulton & Bros. livery stable presented a lively scene Tuesday. It was another busy day for them. Joe Kindig, of York, Pa., the horseman, was here on his monthly visit, and as usual quite a number of country people were in town with horses for sale. Mr. Kindig secured a car-load of the best horses he probably ever shipped from this point. They will be sent to his home in York to-day.

MR. J. M. HAWLEY is still very ill at his home at Forman's Springs.

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impeded and impure, and all the functions of the body suffer in consequence. Hood's sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favorite cathartic with all who use them. All druggists. 25c.

The only successful transplanter on the market, and stood the test during the dry season of 1895, where its competitors failed.

A practical machine that any farmer can use, simply constructed and will last a life-time if properly cared for. Makes its own season, gets tobacco out earlier, starts quicker and more uniformly than any other.

From Leslie Combe, Lexington, Ky.: This is to certify that I have used three different Tobacco Transplanting Machines upon my farm, and that I find the plants live so much better after the Fuller & Johnson "Bennies" I would buy no other. This opinion is formed from working all of these machines side by side through the entire season of 1895.

Every machine fully warranted to do satisfactory work in the field or no sale. To secure one of these machines orders must be placed early. For sale by

TOO BAD! TOO BAD!

The Prospects For a Semi-Professional Ball Team This Year Very Gloomy.

Here's bad news for local lovers of the great National sport,—base ball.

The outlook for a first-class semi-professional team here this season is not very bright. In fact, the parties interested have about abandoned all hope of getting a club together.

Those who were enthusiasts last year it seems have lost their enthusiasm, and some of them are taking no interest in the matter.

Probably, if proper efforts were made a good team could yet be secured in time to open the season by the 20th of this month, which would be soon enough, as that would give nearly four months playing.

Unquestionably a first-class team would prove a good thing for the city, from a business standpoint. It would not only bring many a good dollar to Maysville, but also keep many here that will go elsewhere in the event that no club is organized.

Portsmouth, Ashland and Huntington will all have teams this year.

There is talk now among the local players of trying to organize a club to be composed of "home talent" almost exclusively. It is believed that with a little practice a good strong club could soon be gotten together. There's plenty of talent here, and work might develop some star players. With Cox, Wadsworth, Rogers, Wells, Lloyd, Rudy, Wormald, Wood, Sutherland and others a team strong enough to face any amateur nine could be organized.

Ray Tenley might be secured for catcher and Fred Frank to help in the outfield or at second base. With these two and an extra pitcher the team would be a pretty strong one.

If anything is to be done towards organizing a club it should be done at once.

COL. BROWN,

The Well-Known Railroad Man, Dies at His Home in Lexington.

Colonel Charles L. Brown, the well-known railroad man, died last evening at 6 o'clock at Lexington.

He was connected with the old K. C. for years, but of late had charge of the C. and O.'s freight department at Lexington.

Deceased had many warm friends in Maysville. One of his daughters is a pupil at Visitation Academy.

The Harrodsburg Democrat says that Mr. W. W. Goddard will plant not exceeding 12 acres of tobacco this season. Heretofore he has raised from 18 to 20 acres. His idea is that every plant, a man puts out more than he can properly attend to is suicidal, not only to himself but to other planters, from the fact that it costs as much to handle inferior tobacco as it does the very finest. Raise less and give it better attention; you will have less to handle and will get much better prices, which will more than make up the difference.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know

Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless**?

Do You Know that 35 average doses of Castoria are furnished for **35 cents**, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

THE NEW SHAH.

He Will Not Arrive at Teheran For Several Days Yet.

NEW YORK, May 6.—A special to The World from Teheran, Persia, says: The new shah will not arrive for some days.

The body of the murdered shah has been deposited in a temporary vault in the religious theater.

The Americans here are shocked by his murder, as they had great regard for the shah. Dr. Potter paid a fitting tribute in his Sunday sermon, eulogizing him for his kindness and liberality.

The assassin continues defiant, and says the work thus begun will go on.

Chicago House Collapsed.

CHICAGO, May 6.—Yesterday afternoon, while Daniel Ross, a carpenter, was raising a house at 100 West Fourteenth street, by means of jackscrews, the house collapsed, burying Ross and the occupants in the ruins. Ross was dug out by the police and taken to the county hospital, fatally injured. Charles Eragnitz, his sister Jennie and a little girl named Edna, occupants of the house, were also buried in the ruins, but all escaped serious injury. It is supposed some of the jackscrews gave way, causing the house to collapse.

KINGSTON, N. Y., May 6.—State Senator James Ballantine of the Twenty-sixth district, died at his home at Andes Delaware county, yesterday. He was seized with a paralytic fit and died within an hour.

Points For the Farmer.

A single gallon of boiled oil will soak in and furnish a protecting cover for all the farm wagons, plow handles, horse rakes, etc., on the farm, keeping the weather from them and thus saving its cost a dozen times. Put it on hot.

Tobacco stems if ground fine and used along with bone meal are valuable as a fertilizer. They contain about five per cent. of potash and from one to two per cent. of nitrogen, and are worth from \$6 to \$10 per ton, according to quality.

NITRATE KING DEAD.

Colonel North Drops Dead While Presiding at a Meeting.

LONDON, May 6.—Colonel North, the so-called nitrate king and well known sportsman, while presiding at a meeting at the Nitrate company's offices in the Wool Pack buildings yesterday, fainted in his chair and expired at 4 o'clock in the afternoon.

Although the death of Colonel J. T. North is believed to have been due to heart disease, it is stated that shortly before his demise he ate a dozen oysters sent to him from a restaurant in the vicinity of the company's offices. The shells have been kept and will be examined. Among those present in the board room when the colonel fainted was his son, Captain North, and in his arms the money king expired.

A couple of doctors were summoned almost immediately after the colonel fainted, but their efforts were useless. There will be a postmortem examination of the remains.

The officials of the Nitrate company are very reticent about the matter, and were even reluctant to admit that the colonel was dead.

The death of Colonel North has caused great excitement in financial circles, and it also created a sensation when it was announced in the lobby of the house of commons.

DELAYED ACTION.

Senator Hill Prevents Vote Being Taken on the Bond Resolution.

WASHINGTON, May 6.—Senator Hill added another day—the fifth—in opposition to the bond resolution in the senate yesterday. Early in the day Mr. Peffer, author of the resolution, announced that he would seek to force a vote by holding the senate in session until the resolution was disposed of. It was evident, however, that senators were not disposed to submit to the hardships of a protracted and possibly an all-night session, and Mr. Peffer did not carry out his announced purpose.

Mr. Pettigrew (Rep., S. D.) supported the bond resolution and severely criticised the administration of the treasury. The senator also criticised Mr. Sherman for his recent approval of the treasury administration.

Some progress was made on the river and harbor bill by taking it up in the morning hour. The only changes made were those restoring the authorization of contracts of \$1,403,000 for Sabine Pass, Tex., and \$987,000 for Savannah (Ga.) harbor.

A large number of pension bills were passed at the close of the day.

Want Four Battleships.

WASHINGTON, May 6.—The opponents of battleships sustained an overwhelming defeat in the house yesterday on the proposition to accept the senate amendment to the naval appropriation bill reducing the number to two which was defeated by a vote of 141 to 81.

SUNBURY, Pa., May 6.—William S. Kersetter, a young farmer, shot and killed his wife, Caroline, yesterday afternoon. Kersetter's mother was so shocked by the tragedy that she fell dead of heart failure while running to a neighbor's house for help. There is no motive for the crime for the family lived happily together and had no quarrels.

LOUISVILLE TOBACCO MARKET.

Stocks Reduced Nearly 5,000 Hogsheads During April—Good Leaf Brings Good Prices.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 2,346 hds. with receipts for the same period 1,000 hds. Sales on our market since January 1 amount to 69,841 hds. Sales of the crop of 1895 on our market to this date amount to 66,315 hds.

We have had a month of unusually dry weather without even a brief season for prizing tobacco. The stocks on our market at the close of April are 13,958 hds., against 18,001 hds. corresponding date last year, showing a reduction during the month of 4,952 hds. Notwithstanding the very small receipts for the time of year and the great reduction in stocks, we are unable to report any general improvement in values either for burley or dark kinds, but to the contrary, prices during April were irregular, low and extremely unsatisfactory to sellers, except in exceptional cases of especially desirable hds.

The prices current for common tobacco (which constitutes an unusually large per centage of the crop) seem low enough to cause a reduction in the tobacco acreage of this year, but it appears the farmers are preparing for the usual planting, thus failing to apply the only prompt remedy for present low values.

We have recently made occasional sales of fine burley leaf at prices ranging from \$15 to \$20. Prices have been fairly well sustained for good lugs and common to medium leaf of the full bodied red type. These classes constitute a very small part of the offering and the general range of values for burley tobacco has been on the downward grade.

The following quotations fairly represent our market for burley tobacco, (1895 crop):

Trash (dark or damaged).....	\$ 75@ 1 50
Common color trash.....	2 00@ 4 00
Medium to good color trash.....	4 00@ 6 00
Common lugs, not color.....	2 00@ 4 00

Medium to good leaf.....	8 00@ 15 00
Good to fine leaf.....	15 00@ 22 00

The above quotations are not applicable to green and frosted crops.
